

FANART,
FANFICTION

ooo is not

real art/

fiction

it's lesser-than
and certainly
not academic.

ACTUALLY,
it's just "self-pub
transformative
works that
can be literary,
scholarly, etc. like
any other form.
The Aeneid is fanfic!

Fanworks are popular culture,
expressions of art/creativity
and an excellent ^{demonstration} example of
literary communities of
interpretation

They're not inherently
anything - even a genre.
